

People who can present on Immigrant Students and Higher Education

Who we are:

In April of 2009, a group of supporters dedicated to assisting undocumented students and their families met to combine their resources to assist them in their pursuit of a higher education. After combining resources they decided to volunteer to disseminate this information to the Colorado community. They believe that no human being is illegal and everyone is entitled to an education.

Note: Please know that all of us do this work on our spare time and on a voluntary basis. We really appreciate donations and contributions to pay for our time and mileage.
